## System Guidance

How to submit a repayment request  
(tenants)

At the end of a tenancy one tenant may start the repayment process on the tenants' behalf by submitting a [repayment request](#). The tenant who submits the request will become the lead tenant in respect of the deposit, and they should also submit any response should the landlord or agent submit a counterproposal to the initial request.

If you are a non-lead tenant, then you can [add your bank details](#) separately in order that we can pay any share due to be paid directly to you.

#### Tenants associated with this deposit

One tenant must act as lead tenant during the repayment process and any subsequent negotiations or dispute. The lead tenant acts on behalf of the other named tenants, with their authority.

Once a tenant has raised or responded to a repayment request, they are listed as the lead tenant on this page. We communicate with all tenants throughout the process, but only the lead tenant has options to give instructions on behalf of all tenants.
